

# Bath Filler & Bath Shower Mixer Instruction

**IMPORTANT** Please read these instructions carefully and keep in a safe place for future reference. If you are unsure of any part of the instructions in this document then we recommend that you contact a reputable qualified trades person.

## INTRODUCTION

The Model supplied may vary from the image shown below. Please note that the general installation process for all Bath Filler & Bath Shower Mixer fittings are the same and the following guide will take you through the process.

## INSTALLATION

Prior to installation please ensure all supply pipes have been thoroughly flushed through to remove any debris.

1. Turn off the water supply. Before installation identify all components and inspect the product for any damage.
2. Carefully assemble new fitting onto the bath, ensuring rubber washers or cushions are in place at the base of the fitting.
3. Tighten the backnuts, ensuring equal torque is applied to both nuts.
4. Earth any new pipework adequately. Seek the advice of a qualified trades person if in any doubt.
5. Connect water supply pipes to the inlet tails of the fitting. Note the hot water supply must connect to the left hand inlet when viewing from the front.
6. Turn the valves to the open position.
7. Open the isolating valves (not supplied).
8. Turn on water supply and allow to run for a few minutes to flush out the piping system thoroughly.
9. Check connections for watertightness.

## Guarantee

For full details of our guarantee please refer to our website. Our products are backed by a 10 year guarantee, this is only valid to customers who complete and submit the online Niagara® Guarantee Registration Form within 30 days of installation. Please note that products with finishes other than Chrome are guaranteed for 2 years only, these products must also be registered online to activate the 2 Year Guarantee. To register and activate your guarantee please visit [www.niagarabathrooms.co.uk](http://www.niagarabathrooms.co.uk)

## Aftercare

Care **MUST** be taken when cleaning our products to avoid damaging the fitting or finish. To maintain the appearance of the fitting, please ensure it is cleaned regularly using only a clean soft damp cloth. Whilst all of our products are durable the finishes are vulnerable to some strong substances, we only recommend the use of warm soapy water, **DO NOT** use abrasive sponges, strong household cleaners, scouring agents, organic solvents or acidic cleaners as they may cause surface deterioration, peeling or change of colour.
